| <b>Description</b>            | The unequal-sided PROTEKTOR corner bead made of galvanised steel with increased zinc coating for enhanced corrosion protection is suitable for interior and exterior plaster from 15 mm. Especially for narrow soffits, e.g. in window and door areas.                                                                                                                                                                                                                                                           |
| <b>Product area</b>           | Interior plaster   Exterior plaster                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
