| <b>Designation</b>            | Corner bead for interior plaster 9 mm, rounded edge                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Description</b>            | PROTEKTOR corner bead made of galvanised steel is suitable for different interior plaster thicknesses from 9 mm with a narrow head design. It enables easy edge formation on surfaces with different plaster thicknesses. Can also be used variably for different plaster thicknesses in the reveal area.                                                                                                                                                                                                        |
