

PRODUCT DATA SHEET

EPS insulation roundel
Diameter 70 mm, height 20 mm
Item no. 15320

Status: 02.08.2026 | 13:13

Designation	EPS insulation roundel Diameter 70 mm, height 20 mm
Description	The PROTEKTOR EPS washer, white, Ø 70 mm, thickness 20 mm, ensures professional installation of insulation dowels in recessed installation situations and prevents dowel marks on facade insulation.
Product area	Thermal insulation
Product category	Assembly elements
	20 mm
Application Areas	The insulation washers are used in composite thermal insulation systems (ETICS) to cover dowel heads, especially when mechanically fastening insulation boards. They prevent thermal bridges and contribute to the continuous insulating effect of the facade.
Underground	EPS insulation washers are used on insulation boards made of EPS or similar materials. The surface must be stable, flat and free of dust so that the recessed washer lies flat and adheres permanently.
Treatment	When inserting the insulation dowels, a circular recess is drilled or punched around the dowel and the EPS washer is inserted flush with the surface.
Tool	Milling cutter 15323 Setting tool 15325
Overplastering Ability	Long-term stability even with humidity and temperature fluctuations.
Storage	Store cardboard in a dry place.
Annotation	Long-term stability even with humidity and temperature fluctuations.
Customs tariff number	39269097
Opened label	Purchase only possible as full packaging units.

Item number	Length (cm)	Material	Colour	Packaging unit
120382	0.00	Polystyrene	10 - white	200 PCE / 99 BOX
