

PRODUCT DATA SHEET

Milling cutter for EPS insulation roundels
Diameter 70 mm, depth 20 mm
Item no. 15323

Status: 02.08.2026 | 13:10

Designation	Milling cutter for EPS insulation roundels Diameter 70 mm, depth 20 mm
Description	The PROTEKTOR cutter for EPS insulation washers is used to make precisely fitting recesses with a diameter of 70 mm.
Product area	Thermal insulation
Product category	Assembly elements
Application Areas	Tool for the precise creation of cavities for insulation washers.
Underground	The EPS insulation boards must be laid flat, aligned and glued or dowelled securely so that they are sufficiently stable and free of tension.
Treatment	The milling cutter is guided with even pressure and at the correct speed. The milling depth must be limited to the depth of the washer. After milling, the insulation washer is inserted so that it fits snugly and securely.
Tool	Round milling cutter with centring tip, driven by drill presses or milling machines with speed control and extraction option.
Tool Cleaning	After use, remove any adhesive insulation material from the milling tool. If necessary, blow out with compressed air and clean the bearing.
Storage	Store cardboard in a dry place.
Security Advice	Safety goggles, a dust mask and ear protection must be worn. The use of an extraction system is recommended to avoid harmful fine dust. The device must be checked to ensure it is in good working order before starting work.
Customs tariff number	39269097
Processing instructions	Low-wear coating extends service life even with intensive use.
Opened label	Purchase only possible as full packaging units.

Item number	Length (cm)	Material	Packaging unit
120385	0.00	Hard PVC	40 PCE / 99 BOX
