

PRODUCT DATA SHEET

Assembly tool for flush mounting
for insulation dowels with Ø 60 mm
Item no. 15325

Status: 02.08.2026 | 17:22

Designation	Assembly tool for flush mounting for insulation dowels with Ø 60 mm
Description	PROTEKTOR installation tool is used for the controlled sinking of insulation dowels Ø 60 mm in composite thermal insulation systems. It also enables the precise fitting of the corresponding insulation washers (70 mm) to ensure thermal decoupling and a flat surface. Approved for insulation dowels 15291-15302.
Product area	Thermal insulation
Product category	Assembly elements
Application Areas	Tool for controlled and force-fit sinking of insulation dowels in composite thermal insulation systems and for creating precisely fitting cavities for insulation washers.
Underground	Suitable for approved insulation boards such as EPS, XPS or mineral wool with sufficient compressive strength and professional installation on a load-bearing substrate.
Treatment	The tool is placed on the dowel and guided with controlled force or using impact/torque (e.g. with a cordless screwdriver). It ensures a defined penetration depth for precise engagement with the insulation washer.
Tool	Robust setting tool with 60 mm guide holder and integrated depth stop. Suitable for hexagonal machine mountings.
Tool Cleaning	Remove any insulation material residue after use. Clean the mounting plates and centring surfaces regularly to prevent sticking or inaccurate setting depths.
Storage	Store cardboard in a dry place.
Security Advice	Check the tool for damage before use. Wear personal protective equipment (safety goggles, gloves, ear protection if necessary). Only use with suitable machines to avoid the risk of injury from slipping or jamming.
Customs tariff number	82077090
Opened label	Purchase only possible as full packaging units.

Item number	Length (cm)	Material	Packaging unit
120525	0.00	Galvanised steel	1 PCE / 99 BOX
