

PRODUCT DATA SHEET

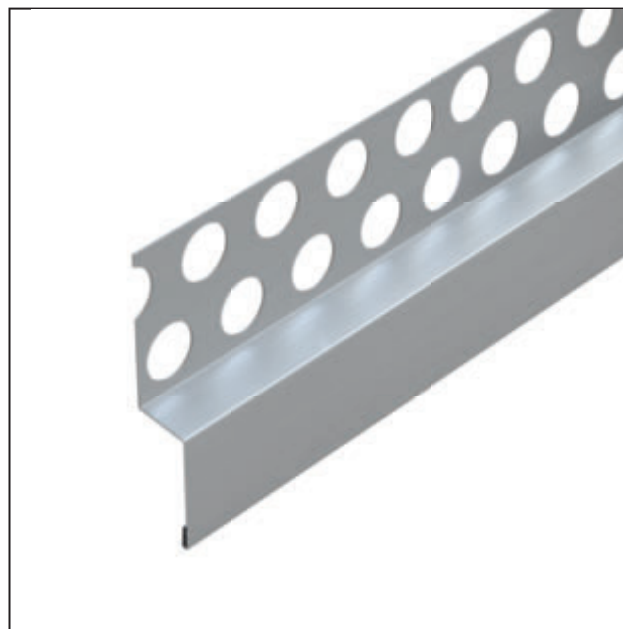

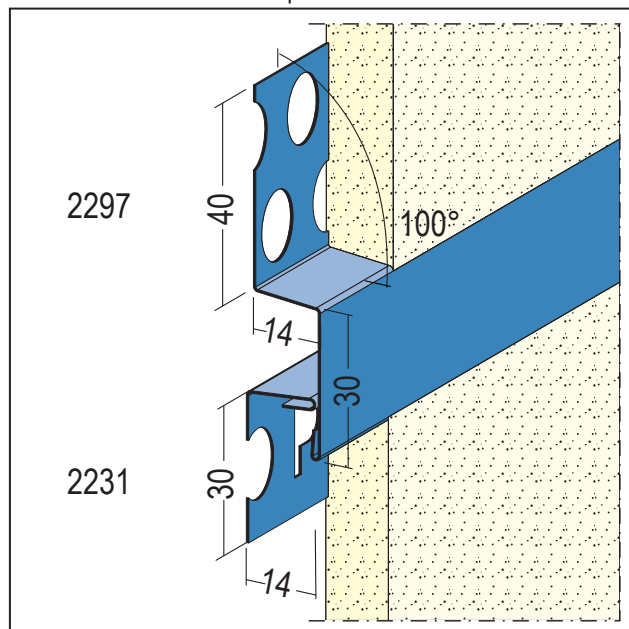

Expansion joint bead for interior and exterior plaster

14 mm

Item no. 2297

Status: 01.08.2026 | 20:34

Designation	Expansion joint bead for interior and exterior plaster 14 mm
Description	PROTEKTOR expansion joint/overhang profile made of stainless steel for interior and exterior plaster from 14 mm. Suitable for vertical and horizontal use.
Product area	Interior plaster Exterior plaster
Product category	Joint profiles Connecting profiles
Types of mortar	Silicate plaster, Reinforcing plaster organ, Insulating plaster, Deposits cleaning, Gypsum mortars and mortars containing gypsum, Gypsum plaster, Lime plaster, Lime cement plaster, Clay plaster, Restoration plaster
Plaster thickness	14 mm
Standard EN	EN 13658-2
Leg length	30 mm
Angular Position	100
Motion recording train / print	+/-10 mm
Reaction to fire (R2F)	A1
Treatment	Use the combination 2297 with 2297 only vertically. For horizontal use, that has to be the case first End profile 2231 can be installed below. The overlap then takes place from above with Profile 2297. An additional sealing material, e.g. pre-compressed sealing tape, must be used to achieve protection against heavy rain in the exterior area. The sealing in the area of the joints to the profile extension must be carried out on site using suitable sealing material below the profile joints.
Overplastering Ability	Profile combination vertical of 2297 plus 2297: Profile combination horizontal and vertical of 2297 plus 2231. Powder coating in accordance with RAL specification available for an extra charge. Color coating of our stainless steel profiles on site is possible with suitable coatings. The technical specifications in the coating manufacturer's current data sheets must be observed and, if necessary, test areas must be created.
Annotation	Profile combination vertical of 2297 plus 2297: Profile combination horizontal and vertical of 2297 plus 2231.
