

PRODUCT DATA SHEET

Window sill featured bead for sealing foils

6 mm

Item no. 37127

Status: 01.08.2026 | 21:04

Designation	Window sill featured bead for sealing foils 6 mm
Description	PROTEKTOR PVC window sill featured bead. Plaster leg with sewn-on alkali-resistant glass fibre mesh for ETICS systems. With closed leg for bonding a sealing film as a second sealing layer below the window sill. The soft connection of the adhesive leg allows for ideal attachment to any parapet slope. Drip edge with a 10° slope for targeted water drainage. The soft connection overhang protects the underside of the window sill during plastering.
Product area	Exterior plaster Thermal insulation
Product category	Connecting profiles Connection and end profiles
Plaster thickness	6 mm
Grammage	160 g/m²
Mesh size	4 x 4 mm
Reaction to fire (R2F)	E
Treatment	The drip edge extension can be removed at the predetermined breaking point if necessary (e.g. with colored window sill and plaster systems).
Overplastering Ability	One-sided tissue protrusion of 10 cm at the end of the bar.
Annotation	One-sided tissue protrusion of 10 cm at the end of the bar.
Customs tariff number	39259080
Opened label	Purchase only possible as full packaging units.
