| Grammage                      | 160 g/m²                                                                                                                                                                                                                                                                                                                                                                |
|                               | 1 mm                                                                                                                                                                                                                                                                                                                                                                    |
|                               | 8 mm                                                                                                                                                                                                                                                                                                                                                                    |
| Mesh size                     | 7 x 7 mm                                                                                                                                                                                                                                                                                                                                                                |
| Treatment                     | Please observe the PROTEKTOR processing guidelines and recommendations. For plasters and thermal insulation from 6 mm plaster thickness and more. At conventional plastering systems, care should be taken that the base plaster is pulled up to the front edge. When required, the insertion leg can be shortened from 24mm to 13mm by a predetermined breaking point. |
| Overplastering Ability        | One-sided mesh-overhang of 10 cm at the end of the rod.                                                                                                                                                                                                                                                                                                                 |
| Annotation                    | One-sided mesh-overhang of 10 cm at the end of the rod.                                                                                                                                                                                                                                                                                                                 |
| Customs tariff number         | 39269097                                                                                                                                                                                                                                                                                                                                                                |
| Opened label                  | Purchase only possible as full packaging units.                                                                                                                                                                                                                                                                                                                         |

| Item number | Length (cm) | Plaster thickness | Material                        | Colour     | Packaging unit  |
