

PRODUCT DATA SHEET

Movement joint bead for thermal insulation

6 mm, surface/corner

Item no. 37531

Status: 01.08.2026 | 00:06

Designation	Movement joint bead for thermal insulation 6 mm, surface/corner
Description	PROTEKTOR movement bead made of hard PVC and a soft PVC centre section with sewn-on alkali-resistant glass fibre mesh for interior and exterior plaster from 6 mm, for use on surfaces and in interior corners. For outdoor use and in damp rooms, only for vertical use. The PVC centre section can only be coated with suitable coatings to a limited extent. Approval from the coating manufacturer is required.
Product area	Thermal insulation
Product category	Joint profiles
Plaster thickness	6 mm
Revision	Only to be installed vertically on damp or wet surfaces as well as exposed building elements. PVC central piece offers limited possibilities for applying suitable coatings. Approval is required from the coating material manufacturer.
Motion recording train / print	+/-1,5 mm
Grammage	160 g/m ²
Mesh size	4 x 4 mm
Treatment	Profile joints and connections to expansion beads must be installed correctly and in accordance with the specific load conditions. In outdoor areas and in areas subject to moisture, the client must ensure proper waterproofing, e.g. using suitable, system-compatible sealants or by installing pre-compressed sealing tapes. The relevant specifications and installation instructions provided by the manufacturers of the sealants or sealing tapes used must be observed. The product-specific areas of application and installation instructions for the profile must also be taken into account.
Overplastering Ability	One-sided tissue protrusion of 10 cm at the end of the bar.
Annotation	One-sided tissue protrusion of 10 cm at the end of the bar.
Customs tariff number	39269097
Opened label	Purchase only possible as full packaging units.

Item number	Length (cm)	Plaster thickness	Material	Colour	Packaging unit
