

PRODUCT DATA SHEET

Adhesive for PVC tube

Item no. 81250

Status: 31.07.2026 | 07:31

Designation	Adhesive for PVC tube
Description	PROTEKTOR special dissolving adhesive for the quick and reliable bonding of molded parts made of rigid PVC, with good temperature resistance and good UV resistance.
Product area	Roof drainage
Product category	Tools
Application Areas	Special detachable adhesive for the quick and reliable bonding of molded parts made of rigid PVC.
Appearance	Colorless after hardening.
Materialbase	Vinyl chloride polymers in solvent.
Density	ca. 0,90 g/cm ³
Underground	The surface of the molded parts must be dry and free of dust and grease.
Treatment	The special release adhesive is to be applied to one side of the surface to be bonded as a bead of adhesive (meander-shaped). The amount of adhesive applied must be selected depending on the material thickness, the adhesive can "penetrate"! The user is responsible for their own testing. The open time of the special release adhesive is 20 ° C and 50% r. F. at about 120 seconds. The molded parts must be joined within the open time and must be fixed / pressed until they are functional. Functional strength with tension-free bonding is achieved after approx. 2 - 4 minutes. Depending on the ambient conditions, full curing is achieved after approx. 24 hours to 8 weeks.
Consumption	With a 20 mm wide bond approx. 8 g / meter
Drying time	Open time approx. 120 seconds Functional strength tension-free approx. 2 - 4 minutes Curing time at 20 ° C and 50% r. F. approx. 24 hours
Treatment Temperature	+ 5 ° C to + 30 ° C
Storage	The special dissolving adhesive must be stored in the original container, dry, at temperatures between 15 ° C and 25 ° C without direct sunlight.
Storage life	Unopened, the shelf life is 18 months.
Security Advice	The instructions in the safety data sheet must be observed.
Customs tariff number	35061000
Processing instructions	Transparent and fast-setting. For bonding gaps < 0.1 mm.
Opened label	Purchase also possible as a single item:
