Rainwater downpipe off flap  
DN 50 BDD brown  
Item no. 83526

Status: 31.07.2026 | 03:53

|                       |                                                                                                                                     |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Designation           | Rainwater downpipe off flap DN 50 BDD brown                                                                                         |
| Description           | The PROTEKTOR rainwater collector channels rainwater from the roof gutter, via the downpipe, into a collector, such as rain barrel. |
| Product area          | Roof drainage                                                                                                                       |
| Product category      | Downpipes                                                                                                                           |
| Customs tariff number | 39269097                                                                                                                            |
| Opened label          | Purchase also possible as a single item:                                                                                            |
