Cover profile  
45 mm  
Item no. 86430

Status: 30.07.2026 | 23:23

|                        |                                                                                                                                                                                                                                                                                                                                    |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Designation            | Cover profile 45 mm                                                                                                                                                                                                                                                                                                                |
| Description            | The PROTEKTOR cover profile with a clear dimension of 45 mm is ideal for covering and edging eaves boards, attic and verge boards. Panels and timber up to a thickness of 25 mm can be edged and protected from moisture. The cover profile is suitable for various roof coverings, roof waterproofing membranes and roof pitches. |
| Product area           | Roof drainage                                                                                                                                                                                                                                                                                                                      |
| Product category       | Roof plates                                                                                                                                                                                                                                                                                                                        |
| Product width          | 45 mm                                                                                                                                                                                                                                                                                                                              |
| Reaction to fire (R2F) | A1                                                                                                                                                                                                                                                                                                                                 |
