

PRODUCT DATA SHEET

Base profile for thermal insulation
20 mm, aluminium
Item no. 90602

Status: 30.07.2026 | 21:38

Designation	Base profile for thermal insulation 20 mm, aluminium
Description	PROTEKTOR aluminium drip bead in trough shape is suitable for ETICS systems.
Product area	Thermal insulation
Product category	Base profiles
Material thickness	0,6 mm
	20 mm
Product height in mm	35 mm
Overplastering Ability	Installation instructions: Insert the lower part of the combination with the fastening leg on the upper edge of the insulation panel, which runs parallels in height to joint or the plain bearing in the building body, and lightly apply the adhesive. An 8-mm thick styrofoam strip with a compliment will be applied to the base. Place the base profile on the polystyrene strip and attach to the substrate. After installing the insulation panels, hang the perforated clip-on profile. Arrange profile bars underneath one another in a staggered manner. Sub-divisions and perforated attachments are designed for organic and mineral plaster constructions.
