

# PRODUCT DATA SHEET

Ventilation angle double-sided square perforation  
50 x 70 mm, Aluminium schwarz  
Item no. 9303

Status: 30.07.2026 | 20:11

|                                  |                                                                                                                                                                                                                                                                                                                                                                                    |

| Designation                      | Ventilation angle double-sided square perforation 50 x 70 mm, Aluminium schwarz                                                                                                                                                                                                                                                                                                    |
| Description                      | The PROTEKTOR black aluminium ventilation angle with double-sided square perforations ensures optimal and effective ventilation while extracting moisture caused by diffusion or condensate water formation. It also provides the best possible degree of protection against the entry of small animals into the ventilation area. Free ventilation cross-section 185/255 cm²/lfm. |
| Product area                     | Ventilation profiles                                                                                                                                                                                                                                                                                                                                                               |
