

PRODUCT DATA SHEET

System angle
140 mm, Aluminium
Item no. 9472

Status: 30.07.2026 | 18:41

Designation	System angle 140 mm, Aluminium
Description	System angles for continuous, adjustable profile combinations with ventilation profiles that can be secured using rivets. The new Protektor ventilation system for rear-ventilated curtain façades is easy to use and provides long-lasting quality. This is the very first ventilation system that utilises a connector to ensure tension-free and decoupled ventilation profile installation and conforms to the DIN norms. Another advantage is the continuous adjustability for widths between 160 and 230 mm. This is achieved through the use of a profile combination comprised of a system and ventilation angle. Detailed installation instructions can be found at www.protektor.com/Downloads/Technische Unterlagen/ Fassadenprofile-Produktvorstellung/PLS
Product area	Ventilation profiles
Product category	Protektor ventilation system
Material thickness	0,8 mm
Reaction to fire (R2F)	A1
Customs tariff number	76042990
Opened label	Purchase only possible as full packaging units.

Item number	Length (cm)	Material	Colour	Packaging unit
